---

Dear Cambridge City Councilors,

I am urging you each to support a resolution not to purchase any products from Hewlett Packard (HP) until HP stops providing products to Israel which are used to monitor and track the Palestinian population at military check points and in military jails. The Palestinian people live in extremely poor conditions under a siege in Gaza and under a military occupation on the West Bank. My father escaped Nazi Europe (from Czechoslovakia) in August 1938. My lesson from my father's family experience during the Holocaust is "never again" to anyone.

Peter Lowber, 66 Martin Street, Cambridge, MA 02138
